16 APR 2023

SUN 1 DAY, 9AM-5PM

VENUE

Minimax
Training Centre

394 Lane Cove Rd. Macquarie Park
NSW 2113

FEE

AUD \$700

LECTURER

Dr. Jin Kim

CPD CERTIFICATE POINT

7 Points

Upon satisfactory completion of this Seminar, the course will be awarded 7 CPD Certificate hours.

COURSE SUMMARY

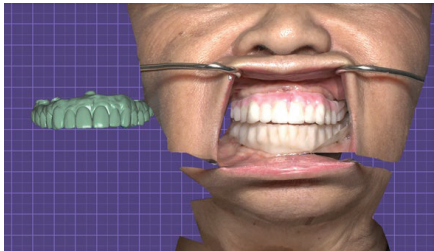

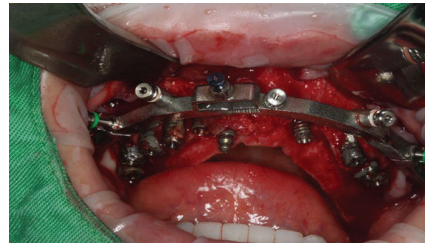

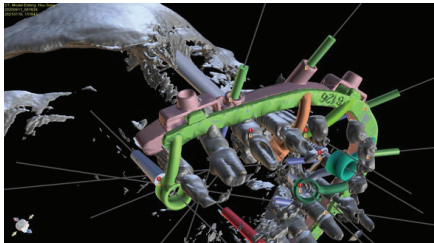

As dentistry moves in the digital world, one has to wonder if this is practical and worthy in your own practice. Where and how does it truly improve the workflow, and does it make financial and logistical sense? This program will be a full day of immersive learning experience, including didactic lectures, demonstrations and “hands-on” experience on broad range of contemporary digital gadgets and tools with an expert clinician who was trained in the analog world but currently immersing in a comprehensive digital environment.

- Board Member, Korean Academy of Oral and Maxillofacial Implantology (KAOMI)
- Board Member, North American Society of Periodontists (NASP)
- Director, Global Dental Implant Academy (GDIA)
- Founder & Director, West Coast Study Club
- Former Lecturer, UCLA School of Dentistry
- Former Lecturer, University of Sydney Faculty of Dentistry
- Clinical Professor, Gachon University Medical School
- Clinical Professor, Catholic University of Daegu Medical School
- Assistant Scoutmaster, Troop 93, Fullerton, California

Dr. Jin Y. Kim is a 1986 graduate of the Faculty of Dentistry at University of Sydney. Upon completing a residency in periodontics at UCLA, he became board-certified by the American Board of Periodontology, and the American Board of Oral Implantology, making him a rare dual boardcertified specialist in the USA.

Dr. Kim currently holds several teaching positions at dental schools around the globe and is a frequent speaker at national and international meetings in over 51 countries worldwide to date. His research has been published in respected scientific journals and in several dental textbooks. He has served as the president of Western Society of Periodontology (WSP) in 2011. He was the scientific chair of 2016 ICOI Summer Symposium, and GDIA US Symposium.

An avid pioneer in leading technology and a self-proclaimed “digital nerd,” Dr. Kim had been an early adapter and key opinion leader for most things digital. He had been using 3D guided surgery for more than a decade and had been exploring digital CAD-CAM in his practice since 2016. During the pandemic break, he had established a digital dental laboratory within his practice and is now capable of full digital workflow.

With his dentist spouse, Dr. Connie Choi, and son, Dr. Justin Kim, the lab is currently engaged in digital smile design, from planning, and designing to milling or printing a vast array of dental prostheses and gadgets. Currently, Dr. Jin Kim is a key opinion leader and consultant for Vatech, Medit, Accuretta and SprintRay.

DIGITAL WORKFLOW IN CONTEMPORARY DENTISTRY: IS IT FOR ME?

APPLICATION FORM
